1. On 17 July 1950, Lieutenant Colonel Pavlov (fnu) of the Transportation Department of the SCC requested that the Bridge Department of the Ministry of Traffic submit a list of Oder-Neisse bridges, specifying their condition, planned maintenance, and measures taken for reconstruction. \*

25X1A

Comment. Pavlov, (fnu), is known as head of the Motor Transport and Road Division of the SCC. It is not quite clear whether the data requested by him refer only to highway bridges or also to railroad bridges. The Soviets have already arranged for the acquisition of such records and are currently being informed on bridge conditions by German authorities. It is therefore possible that the pertinent records are to be thoroughly re-checked because of the present crisis.
